

Futures202

Building on Foundations101, in this multi-day programme you'll discover more about yourself, those around you, and hone your financial skills. Our hands-on workshops offer you the **tools to grasp your future**—gaining financial independence and emotional maturity along the way.

Workshops

Investment-driven Module

Straight-Forward Share Market

The Share Market is an ever-evolving beast that can be tricky to navigate—let us simplify it for you. We'll break down the stock exchange, give you tips on what to look for, show you how you can start investing, and why it could be right for you.

Property Pillars

Have you heard about the good ol' kiwi dream of climbing the property ladder? We'll explain what makes property a good investment and what it takes to begin the climb.

Business Basics

Want to be your own boss? Or maybe you have an idea that's better than sliced bread? We'll talk you through the common ways businesses are set up, weigh up the pros and cons, and give you the tools you need to get started.

Socially-driven Module

Who Are We, Really?

The way you interact with others largely stems from your values, beliefs and leadership of yourself. By exploring what these are, you'll be equipped to build better relationships, have productive communication and have difficult conversations in a healthy way. Let's get into it!

Giving Back

Hands up if you think the best part about the holiday season is giving gifts, rather than receiving them? This workshop is based on the same principle—that giving back to your community is personally rewarding. More than that, it builds character and connects you to those around you.

Identity-driven Module

Who Are You, Really?

This insightful workshop will offer a fascinating glimpse into how each of us thinks, feels and processes our world. Awareness of how we think and feel is a great step toward having personal knowledge and self-intelligence, allowing us to make sound, balanced choices in any situation. Are you ready?

Kick(start) the Habit

From kicking old habits to starting new ones, we'll take a deep-dive into what habits to introduce into your day-to-day life, and which to kick to the curb. More importantly, we'll show you how to implement them effectively.

Goal-Getting

Setting and achieving goals requires focus and a realistic approach. By using goal-setting templates and building motivation, we'll help you to aim high, take action and make your goals a reality.
