## Workshops

### Successful Saving

We'll share with you our sweet set of skills to make saving your money simple, sustainable and successful. Seriously.

### Better Budgeting

A budget is about telling your hard-earned money where to go, rather than wondering where it all went. It's about ensuring that your savings stay as savings, so that your money is available to you when you really need it. We'll show you how.

### Money Musts

Credit. Debt. Tax. Inflation. Knowing the definitions of these terms—and how they all work together—will help you make better financial decisions, and allow you to apply your money skills in a number of real-world settings.

### Goal-Getting

Setting and achieving goals requires focus and a realistic approach. By using goal-setting templates and building motivation, we'll help you to aim high, take action and make your goals a reality.
